

TPA Benchmark Talent SolutionsSM

**Quality Assurance
Southeast TPA Firm
Job 18
Remote**

Thank you for using the TPA Benchmark Talent Solutions Job Board!

We are seeking a candidate for our Quality Assurance team, also known as the peer review team. The ideal applicant would have over 10 years of experience in end-to-end administration tasks, including complex contribution calculations, testing, and Form 5500 preparation. The role involves providing technical support and conducting quality and compliance reviews of others' work, rather than managing a personal client portfolio. Daily collaboration with the internal team is expected, without direct client interaction. While prior peer review experience is advantageous, it is not mandatory; however, substantial experience in compliance is essential. Familiarity with FT William software is considered a plus, but is not a prerequisite for the role.
